WELLER CARTOGRAPHIC SERVICES LTD.

is pleased to continue its efforts to provide map information on the internet for free but we are asking you for your support if you have the financial means to do so?

With the introduction of Apple's iPhone and iPad using GoodReader you can now make our pdf maps mobile.

If enough users can help us, we can update our existing material and create new maps.

We have joined PayPal to provide the means for you to make a donation for these maps. We are asking for \$5.00 per map used but would be happy with any support.

Weller Cartographic is adding this page to all our map products. If you want this file without this request please return to our catalogue and use the html page to purchase the file for the amount requested.
